Attain Rebrands Cloud-based Technology Provider ACF Solutions

McLean, VA – September 15, 2017 – [Attain, LLC](#), a leading management, technology, and strategy consulting firm, announced today that it has completed the integration and rebrand of ACF Solutions (ACF), a cloud-based technology provider specializing in enterprise Salesforce Customer Relationship Management (CRM) transformation projects in the higher education and nonprofit sectors. Attain purchased the Reston, Va.-based company in October 2016.

ACF, which has been doing business as ACF Solutions, An Attain Company since last year's acquisition, now operates as a practice within Attain's Education, Nonprofit, and Commercial Services division. The team is led by former ACF leader Aimee Cabbage and comprises more than 50 Salesforce professionals with a proven track record of more than 600 higher education and nonprofit Salesforce implementations.

Attain, based in McLean, Va., with a nationwide presence, continues to leverage the new team's CRM and Salesforce expertise to expand its cloud-based solution offerings and its client base in the education, nonprofit, and government markets.

"With complementary skills and capabilities, and a strong cultural alignment, our integration of ACF has already proven a great opportunity to scale exceptional delivery of cloud-based technologies to our clients in its first year as part of Attain," said [Chairman and CEO Greg Baroni](#).

"Now, under the Attain brand, we will continue to elevate a well-deserved and established reputation as a leading Salesforce implementation partner in the public sector markets. We look forward to continuing to grow our collective track record of proven performance for market-leading results," Baroni said.

Attain employs more than 600 innovative problem solvers, seasoned experts, and client-focused team members serving approximately 500 clients across 40 states and the District of Columbia.
