

Philip M. Agee, II Named Partner

Attain, LLC Board of Managers admits Phil Agee to Consulting Firm's Partnership

VIENNA, VA – February 25, 2014 – Attain, LLC, a leading management, technology and strategy consulting firm, today announced that Philip M. Agee, II has been admitted to its partnership effective March 1, 2014. As a partner, Mr. Agee will be responsible for Attain's business in North Carolina's Research Triangle Park (RTP) area—one of the nation's most vibrant epicenters of research and technology innovation—providing service to clients across the federal, state and local government, health, and higher education markets.

"We welcome Phil to the partnership with appreciation for his steadfast service over the last five years, and we look forward to his on-going efforts in RTP to position Attain for continued growth," said Manish Agarwal, president, Federal Services, at Attain.

Attain opened its local RTP office in Morrisville, NC, in November 2013 adjacent to Research Triangle Park and its top universities, research facilities, and leading technology firms, demonstrating Attain's commitment to delivering the best transformational services and solutions to the public sector markets we serve. Mr. Agee, who headed the expansion in the RTP area, has established and continues to grow a dedicated local team of highly skilled technical and management consultants who are already actively delivering to clients in the region.

"As a leader, Phil's approach truly embodies the core values that define our culture, and throughout his career, he has put those values to work successfully fostering strong relationships and delivering results as a trusted advisor and partner both within our firm and among our clients," said Greg Baroni, chairman and CEO of Attain.

Mr. Agee joined Attain in 2009 focused on serving the firm's federal clients and quickly demonstrated an aptitude to lead, manage teams and grow business. He is an active participant in the Greater Raleigh Chamber of Commerce; the North Carolina Technology Association (NCTA); Armed Forces Communications and Electronics Association (AFCEA); Young AFCEANS; the Northern Virginia Technology Council (NVTC); and TechAmerica. He served on TechAmerica's Big Data Commission and participated in two of its Vision Conference Committees, with a mission to develop industry market trends for the Civilian and DoD markets.

Before joining Attain, Mr. Agee was a consultant at BearingPoint, Inc. and previously at SRA International, Inc. He holds a bachelor's degree in Science from The College of William and Mary and an MBA from The George Washington University.
