## **Attain Achieves Elite CMMI-DEV ML5 and CMMI-SVC ML3 Appraisals**

McLean, VA – June 2, 2020 – [Attain, LLC](#), a leading digital solutions firm, today announced that the company has been appraised at the CMMI Institute's Capability Maturity Model Integration (CMMI)<sup>®</sup> for Services Maturity Level 3 (CMMI-SVC ML3). This certification is in addition to the firm's Maturity Level 5 appraisal of CMMI for Development (CMMI-DEV ML5). The appraisal was performed by Ace Guides, LLC.

Among the highest form of third-party validation, the CMMI Institute's maturity levels are recognized as a measure of a company's ability to reliably deliver services and solutions. CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. Attain's CMMI-SVC ML3 appraisal indicates that the organization is performing at CMMI's "Defined" level, and is able to execute large-scale, complex projects on time, within budget, and with clear and predictable results based upon well-characterized and understood processes supported by standards, procedures, tools, and methods. The firm's CMMI-DEV ML5 appraisal indicates that the organization is performing at CMMI's "Optimizing" level and is able to implement process-based methodologies for software engineering and development with continual, systematic, and technological performance enhancements over time.

"Attain's dual CMMI rating is a true competitive differentiator which sets us apart from our industry peers and reinforces the enhanced value that the company brings to projects," said [Attain President and COO Manish Agarwal](#). "Our appraisals reflect Attain's dedication to continuous improvement and delivery excellence, as well as the company's proven ability to transform and innovate to create value and achieve mission success."

### **About Attain**
