

Attain Appraised at Capability Maturity Model Integration (CMMI) Maturity Level 5

McLean, VA – April 17, 2018 – [Attain, LLC](#), a leading management, technology, and strategy consulting firm serving the government, education, healthcare, and nonprofit markets, announced today that it has been appraised at level 5 of the [CMMI Institute](#)'s Capability Maturity Model Integration (CMMI)® for software development processes (CMMI-DEV ML5). The appraisal was performed by Ace Guides, LLC.

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 5 indicates that the organization is performing at an “optimizing” level. At this level, an organization has the highest level of commitment to quality and leverages a metric-based, quantitative method to continually improve its processes.

With only thirty-nine other companies in the United States appraised at CMMI-DEV ML5, Attain's rating sets it apart from industry peers and further demonstrates the enhanced value it can bring to its clients to achieve mission success.

“Attain's CMMI level five rating distinguishes our development capability maturity from competitors, with the highest form of third-party validation,” said Attain President and COO [Manish Agarwal](#). “Our appraisal reflects our proven ability to transform and innovate as we reliably deliver software solutions. We are very proud to bring this capability to our clients to reduce risk and long-term costs,” he said.
