Attain and LiveSafe Partner to Bring Mobile Safety to Campuses and Communities

McLean, VA – October 25, 2016 – [Attain, LLC](#), a leading management, technology and strategy consulting firm, has partnered with Arlington, Va.-based [LiveSafe](#), the world's leading mobile safety communications platform, to complement the solutions and services offered through its Transformation Services practice, expedite LiveSafe's entry into key verticals, and drive user adoption.

Attain, based in McLean, Va., with a nationwide presence, will market and sell LiveSafe's cloud-based technology to clients in the government, government contractor, [education](#), health, and [non-profit](#) markets.

LiveSafe, used by businesses, hospitals, malls, college campuses and large sports and entertainment arenas to create a safer environment for employees and customers, enables two-way, real-time interaction between individuals and security and facilities teams.

"Attain has a strong reputation as a leading management, technology and strategy consulting firm, and we are proud to partner with them to accelerate the timing of our entry into these key markets," [LiveSafe CEO Carolyn Parent](#) said. "Attain has great relationships with their customers who trust and consider Attain a preferred partner."

The convenience of using a smartphone to ask for help is a game-changing way to initiate communication about safety and security-related concerns. Users can send text, photos, videos, and precise location information to report incidents ranging from routine maintenance needs to suspicious activity and safety threats.

"Attain is committed to advancing our clients' missions, whether they are that of educational institutions, our government entities, or research and non-profit organizations, and in today's environment, that can only be done if there is a safe and secure environment," said [Greg Baroni](#), chairman and CEO of Attain.

"Our consulting professionals have a legacy of expertise serving the education and government communities, combined with exceptional technical experience in IT and [management consulting services](#)—from [ERP](#), cloud, and mobile technology implementations, to strategic planning, change management, and training that help clients to realize the greatest value from new technology like LiveSafe," he said.
