

## Chief Information Officer – Solutions and Partners 3 Small Business (CIO-SP3 SB)

### Government Wide Acquisition Contract (GWAC)

#### Attain Recertified as “Other Than Small”

##### *The “Other Than Small” Advantage*

Because of its success as a CIO-SP3 Small Business contract holder and resulting growth, Attain has recertified as “Other Than Small” per a contract modification reflecting a change in business size. Attain believes this category provides customers the best solution; qualified partners who have successfully executed so many programs that they are now over the \$27.5M size standard, but still agile and flexible enough to provide exceptional customer service and delivery without changes to established labor rates.

- Deep government expertise serving defense, civilian, and national security agencies, including extensive health-related capabilities gained through support to a wide variety of biomedical and health science missions programs
- Core IT capabilities and experience that span the entire scope of CIO-SP3 task areas
- Employees with deep experience, capabilities and subject matter expertise across all task areas and major health-related missions
- Delivery Center of Excellence that infuses proven quality management processes to fuel program success through In Process Review (IPR) Methodology, Customer Satisfaction Program, Organization Metrics Program, and more
- Agile approach to delivering solutions that ensures flexible yet repeatable process, so agencies realize results faster, while mitigating risk, improving stakeholder engagement and adoption, and reducing costs

## About CIO-SP3 Small Business

The CIO-SP3 SB GWAC is an indefinite delivery, indefinite quantity (IDIQ) contract managed by the National Institutes of Health (NIH), National Information Technology Acquisitions and Assessment Center (NITAAC). CIO-SP3 has a ceiling value of up to \$20 billion over 10 years.

Through CIO-SP3 SB, government agencies can purchase a wide range of services across 10 task areas to meet health, scientific, administrative, operational, managerial, and information management requirements. The goal of the contract is to provide government agencies the ability to quickly solicit and purchase needed IT solutions and services at reasonable prices.

CIO-SP3 Small Business covers a wide-range of innovative and secure solutions for agencies across the federal government, including initiatives as diverse as bioinformatics, enterprise systems, Big Data, mobility, and health IT across 10 task areas that meet scientific, health, administrative, operational, managerial, and information management requirements.

Attain went through a rigorous screening process, including review of technical capabilities, past performance, price, and cost. With a strong team of industry veterans and professionals with demonstrated experience and success across all task areas, Attain is qualified in all 10 Task Areas.
